THE CORPORATION COUNSEL ASSIGNS J. M. WARD TO PREPARE THE CITY'S CASE IN THE

RIOUS COUNTIES FARED.

TAXATION MATTER-HOW THE VA-

The courts are to be appealed to for the purrose of setting aside, if possible, the action of the State Board of Equalization on Tuesday, adding \$88,988,103 to the burdens of New-York City, assessed upon its property, which will materially increase the city's State taxes if allowed

prepare the city's case, and will probably apply | Somerset nines. in a day or two to the Appellate Division of the Supreme Court for a writ of certiorari to review the action of the State Board. The Corporation Counsel said yesterday that the matter the public reception by President McKinley, would be pressed to a conclusion as rapidly as Barker, of the Tax Department, in the matter.

There are ten members of the Beard of Equalization, which body on Tuesday acted on the question of "equalizing" the State taxes, and in so doing shifted \$147,508,863 of real estate valuations from forty-three countles of the State and placed the burden upon the taxpayers of the seventeen remaining counties.

The ten members of the "equalizing" Board are the Lieutenant-Governor, Secretary of State, State Controller, State Treasurer, Attorney-General, State Engineer, the Speaker of the Assembly and the three State Assessors. Some light may be thrown on the way their individual "pulls" were made to operate on Tuesday by consulting the annexed table, giving the names of the various members of the Board, the offices they respectively hold, the counties they hail from, and showing how much each of these countles succeeded in getting out of this annual distribution. The table shows that all the counties save one represented in the Board received substantial benefits, running from \$895,030 obtained by Chemung, State Assessor E. L. Adams's home, to \$21,004,312 for Onondaga, which is the domicile of Attorney-General Hancock. The one county that did not participate in these beneficial results was Oneida, where the State Engineer and Surveyor, Campbell W. Adams, has his domicile. Here, instead of a reduction. an increase of \$4,406,462 was ordained. As the Board took only fifteen minutes, Albany time, to transact its entire business on Tuesday, it may be that its work was rushed through before State Engineer Adams was able to get his "pull into working order.

The table is as follows: STATE BOARD OF EQUALIZATION-1897.

President Barker and Tax Commissioners Sutro and Wells had the two dozen Deputy Tax Com-missioners of the city before them yesterday for annual instruction in their "field work" for the coming year. President Barker, speaking for himself and his associates, began by remarking that at no time had such interest in taxation been awakened in the public mind. "If the taxpayer was ever indifferent to the assessment fixed upon his property by the assessor," he said, "when the tax bill was procured for the purpose of payment, we now feel warranted in reminding you that the opposite will be your experience this year, for you will, in our opinion, discover as you progress with your duties that your labors are being watched exists a registered determination to hold you to a accountability if you are in any manner remiss in the discharge of your duties."

President Barker added that the Commissioners feit a pride in the fact that, while there had been a general upheaval on account of tax assessments in some other parts of the Sinte, the local deputies had done their work and made their assessments consistenly with the law, and that the results had been such as to defy the most captious critics.

MR. LOW AND THE REPUBLICANS.

A TIME FOR HARMONY AND UNITY From The Rochester Post-Express.

This is a carticularly good time for the Republi-cans of New-York City and all the other pariodic citizens of the metropolis who are bent upon secur-ing the election of an anti-Tammany Mayor to keep cool and cultivate the things which make for har-mony and unity.

UP-COUNTRY REPUBLICANS INTERESTED.

HIGH REPUBLICAN INDORSEMENT

ONLY ONE ROAD TO SUCCESS. From The Syracuse Herald.

From The Syracuse Herald.

The Republican organization leaders displayed lack of imagination or knowledge of the situation in running down Mr. Low as a candidate, as is now very extdent from the support he has among the regular Republicans in New-York and Brooklyn, and a decizion to run an independent ticket now that the consequences are clearly in sight would create a thorough distrust of the present New-York City leaders among the up-State Republicans. Success is demanded this iail, and as there is plainly only one road to success, why should Mesers. Platt and Quieg continue to harp on their grievance against the Citizens Union? NO SERIOUS DIFFICULTY IN THE WAY.

From The Poughkeepsie Eagle.

From The Poughkeepsie Eagle.

If he (Mr. Low) stands, as they evidently want him to, in hostility to the Republican party, then he puts pimself out of the question, for that party cannot afford to commit suicide by supporting one who will use his power to strengthen the hands of its avowed enemies. But if he will accept its nomination, and make the canvass as the representative of the united friends of righteous and honest government, as would have been the case if the Citizens Union had never been born, or had possessed sense, then we see no reason why it cannot even now support and elect him.

MR. QUIGG'S ASSURANCE.

From The Brooklyn Times.

"The Times" feels disposed to chide Mr. Quigg for what may be termed his brutal candor in informing the public so positively what the Republican City Convention will or will not do. There is a conventional fection that the Republican voters even in machine-ridden New-York have some slight say in the matter. They will be invited to attend the primary elections and to elect delegates to express their will in the City Convention. How does Mr. Quigg know just what their sentiment is, and how does he pretend to predict so positively in advance just what these as yet unchosen delegates will do?

NO SACRIFICE REQUIRED.

From The Chicago Tribune.

To bring about unity of action among those depended upon to elect a candidate opposed to the unscruptions methods of the Tammany Democracy may require some sacrifice of political prejudice; but so far as Mr. Low is concerned it would seem to require none from Republicans. His political associations have been with the Republican party, while his ability and integrity—and especially his timess for the position of chief executive officer of the Greater New-York—have never been questioned by any except the narrowest partisans of the Tammany machine. From The Chicago Tribune. MR. PLATT MAY SUPPORT HIM YET.

IR. PLATT MAY SUPPORT HIM YET.

From The Worcester Spy.

The Hon. Seth Low has dared to accept the Citizens nomination for Mayor of Greater New-York, and the feelings of Messrs. Platt and Quigg must be beyond any proper expression in print. They stigliden't have threatened so vociferously. However, Mr. Platt is more or less inured to the habit of swallowing things he does not like, and perhaps of swallowing things he does not like, and perhaps he may yet be found among the "ardent supporthers" of Mr. Low, and saying that the president of Columbia CClege is the very man he always wanted for the place.

WHERE THE RESPONSIBILITY RESTS.

From The Chicago Evening Post, From The Chicago Evening Fost.

It is the duty of the Republicans to sink partisanship in partiotism, and overlooking personal affronts, to lodo Mr. Low. The real responsibility for the defeat of good government would, in the event of a Tammany success, rest on Republican shoulders.

Shannon, whose real name was August Sendelbeck, allowed Mrs. Gumbert, his sister-in-law, and her husband, to live in the house with him until about a month ago, when they quarrelled and the Gumberts left the cottage. Last Thursday he was taken, at his own request, to the German Hospital, where he died on Sunday. The Gumberts left the cottage when Shannon went to the hospital, and Crantz stayed in it, and kept the

After the funeral Crantz found Mr. and Mrs. Gumbert waiting for him when he reached the cottage and they demanded the keys of him. He refused to give them up, saying that Shannon had given them to him, and had also verbally given the house to him. As, he added Shannon had left no blood relation, the cottage belonged to him. INCREASE IN PRICE OF FARM PRODUCTS. Washington, Sept. 8.-Assistant Secretary Brigham, of the Department of Agriculture, has prepared the following table showing the increase in prices of farm products this year over those of the corresponding period of 1896;

These are Cincinnati figures in all cases: HIGHER PRICES FOR IRON AND STEEL.

Chicago, Sept. 8 .- "The Industrial World" to-morrow will say: "In spite of evidence that the coal strike is near an end, with its promise of cheaper fuel, there has been further strength in Western fuel, there has been further strength in Western iron and steel. Speaking of production in Chicago and vicinity generally, the output of mills is now well sold for the balance of the year. Makers are firmer and quotations are higher. Northern pig firmer and quotations are higher. Northern pig firmer is very firm at \$10.20 to \$10.50 for No. 2 foundry, and Southern foundry No. 2 is selling at \$10.10, with intimations of another advance this week. Billets are firm at \$17, and iron bars from mill are quoted \$10.10 or better. Sheets, plates and merchant steel have advancing tendencies."

ANOTHER HOT WAVE IN THE WEST. Chicago, Sept. 8.—Chicago sweltered in a temperature of 92 degrees this afternoon. The humidity was high and a hot southwest wind added to the general discomfort. It was hot all around. Ne-braska, Kansas and the whole West and Northwest are in the embrace of a warm wave.

TROUBLE OVER SHANNON'S HOUSE. THE FEVER UNDER CONTROL

A GREAT IMPROVEMENT IN THE SITUA-TION REPORTED.

NO NEW CASES IN OCEAN SPRINGS-DR. GUITERAS BEGINS WORK THERE - SURGEON-GENERAL

WYMAN EXPECTS NO FURTHER TROUBLE. New-Orleans, Sept. 8-When the Board of Health met to-night Dr. Oliphant had no additional case of fever to report to that body as having occurred in New-Orlerns, and was able to say that the local situation had vastly improved, and that there were no present prospects of evil results following the death of the Gelpi child. Dr. Oliphant and his staff have slept little in the last seventy-six hours, and have ransacked the city for suspicious cases of fever without result. Now they are ready to render any assistance in their power to the Government and to the Mississippi authorities in bottling up whatever fever exists in Ocean

Springs and Biloxi. Deep interest has naturally been felt here in the outcome of the investigation of Dr. Guiteras, who arrived at Ocean Springs this morning. Under instructions from the superintendent of the Louisville and Nashville Railroad Dr. Guiteras was put off in the woods a couple of miles from Ocean Springs. It was not long thereafter before the doctor ran up against the quarantine trocha, and had to establish his dentity before he was permitted to cross the

On his arrival in Ocean Springs Dr. Guiteras went immediately to work and investigated a number of cases of the prevailing sickness. He found only two cases, it is said, which deserve the term doubtful or suspicious, and in answer to an inquiry he said he hoped to be able to telegraph the result of his examination to Washngton this evening. In the mean time a correspondent telegraphed to this city that he had carned from a source that could not be doubted that Dr. Guiteras, after his examination, had not been entirely convinced that yellow fever has existed or does exist in Ocean Springs.

A thorough canvass of the wards of Ocean Springs, completed late this evening, shows there have been 748 cases of the prevailing fever since July 8. There are now thirty-seven people still sick. There have been nine deaths and in several instauces physicians' certificates show the fever was complicated with other diseases. There are believed to have been only two deaths due to yellow fever. At the suggestion of Dr. Gant, every house where there has been sickness is seing fumigated. Dr. Gant says that whether the prevailing disease is yellow fever or low malaria it is certainly contagious.

Washington, Sept. 8.—Surgeon-General Wy-

man, of the Marine Hospital Service, reported to the Secretary of the Treasury to-day that the yellow fever situation in the South had greatly improved. The Surgeon-General said that the authorities had the matter well in hand, and he anticipated no further trouble.

This afternoon Dr. Wyman received a reassur-

ing telegram in answer to a message asking Dr. Lemon, president of the Board of Health at Biloxi, Miss., concerning the report of three yel-low fever cases at that place. Dr. Lemon said that he had the best reasons to believe that the disease there was simply malaria.
